**YouTernMark:** Hello #GenYChat... Mark from YouTern here, how is everyone?

**MillennialTweet:** @JimmySW SO true. Glad you're here! #PhD #genychat

**JimmySW:** Q1: Of course we give up some privacy. Anytime you engage in SM you are opening yourself up, that's what makes it so great. #genychat

**ComeRecommended:** A1. Some privacy is lost, but in today's world it's difficult to have a lot of privacy. As long as your safety isn't sacrificed #genychat

**DaveYouTern:** Dave from YouTern here, Hi! #genychat

**katgerste:** Q1. I think we do in some sense, but as an individual it's our own responsibility to be smart about how much you make public #genychat

**gretagrays:** Q1:Definatly, but Its all about limiting what u share. If u would mind the whole world seeing it, then don't

share it. #genychat

- ComeRecommended:** I know! So annoying RT @josippetrusa: Ahhh tweetchat is slow!! #genychat
- josippetrusa:** Hi everyone! Josip here, I blog about stuff :) Hope you're all well tonight #genychat

- YouTernMark:** @CoachJennie @rblake You're both here! GREAT! #genychat
- katgerste:** RT @GenyChat: Q1: Privacy is important, but do we give some of it up when creating online profiles? Is the cost worth the benefit? Stalkers etc #genychat
- gretagray:** @ComeRecommended completely agree! We really don't have much privacy anymore, so might as well embrace it! =P #genychat
- CoachJennie:** Hi guys! RT @youternmark: @CoachJennie @rblake You're both here! GREAT! #genychat
- asr2008:** A1 all depends on the content you choose to put on various online profiles. There is nothing wrong w/ leaving a hint of mystery #genychat
- MillennialTweet:** Agreed. And I just downloaded the NEW version! :- ( RT @josippetrusa: Ahhh tweetchat is slow!! #genychat
- GenyChat:** @MillennialTweet So does privacy only matter when it comes to a social profile and not a professional one? #genychat
- laurenkgray:** @gretagray welcome to #genychat
- katgerste:** Twitter must be in overdrive, updates for the search haven't come through on Tweetdeck either. I'm seeing your indiv. tweets tho! #genychat
- DaveYouTern:** Exactly! RT @asr2008: A1 all depends on the content you choose to put on... Nothing wrong w/ leaving a hint of mystery #genychat
- GenyChat:** @CoachJennie Glad you could stop by! Hope you enjoy the topic tonight! #genychat
- laurenkgray:** Hi everyone! I'm a little late, but I'm Lauren and I'm a senior PR student @WCU :) #genychat
- josippetrusa:** A1 We clearly give up privacy for "free" use of social media. That's the trade-off #genychat
- ComeRecommended:** Good to see you here! RT @laurenkgray: Hi everyone! I'm a little late, but I'm Lauren and I'm a senior PR student @WCU :) #genychat

**GenyChat:** Tweeting tonight from Twitter.com! Wishes Twitter's API would be faster so I could pay better attention on tweetchat! #genychat

**ComeRecommended:** Very true RT @josippetrusa: A1 We clearly give up privacy for "free" use of social media. That's the trade-off #genychat

**gretagrays:** Thanks! nice to meet a fellow pr student. RT @laurenkgray: @gretagrays welcome to #genychat

**YouTernMark:** Agreed (Hi Josip!) RT @josippetrusa: A1 We clearly give up privacy for "free" use of social media. That's the trade-off #genychat

**GenyChat:** RT @laurenkgray: Hi everyone! I'm a little late, but I'm Lauren and I'm a senior PR student @WCU:] #genychat

**JimmySW:** Tweetchat seems extremely slow tonight. I'm not seeing my updates. #genychat

**GenyChat:** RT @katgerste: Twitter must be in overdrive, updates for the search haven't come through on Tweetdeck either. I'm seeing your indiv. tweets tho! #genychat

**MillennialTweet:** @GenYChat I think in a way, yes. Privacy issues often come up with the social profiles. Any LinkedIn users have issues? #genychat

**laurenkgray:** @gretagrays Nice to meet you too! Other AWESOME PR chats: #PRstudchat #pr20chat #prssa :] #genychat

**DaveYouTern:** It seems to be part of the machine / culture. RT @josippetrusa: A1 We clearly give up privacy for "free" use of social media. #genychat

**laurenkgray:** tweetchat isn't working for me so switching to tweetdeck for #genychat

**josippetrusa:** Hi Mark . Hope you're well! @YouTernMark #genychat

**GenyChat:** @MillennialTweet I think LinkedIn is the only networking site that doesn't have major privacy leaks #genychat

**katgerste:** Now we're cooking, updates have come through #GenYChat

**rotolo:** @MillennialTweet depends on what you share. For example, people who post travel plans on LinkedIn might run into privacy issues #genychat

**laurenkgray:** I don't think we completely give up privacy, but there are certain risks with SM. you just need to be smart about what you share. #genychat

**YouTernMark:** TweetDeck movingmuch faster than TweetChat this evening... #genychat

**josippetrusa:** We've all heard the saying "you get what you paid for". We don't pay for social media. Did we expect something else?? #genychat

**KarasPRlove:** Ah hi everyone in #genychat I keep forgetting my chats and I've missed them! Happy 2 make this one! Recent grad Pr/Mark what's the topic?

**MillennialTweet:** @GenYChat I think that's b/c LinkedIn is virtually ur online resume, not your "social life." If one is jobhunting they share big! #genychat

**Data\_Diva:** Turning on the the "live time" feature in new TweetDeck might help #GenYChat

**MillennialTweet:** @rotolo Great point. I've noticed that as well. I try to use it solely for resume/reference features #genychat

**asr2008:** RT @laurenkgray: I don't think we completely give up privacy, but there are certain risks with SM. you just need to be smart about what you share. #genychat

**josippetrusa:** I knowingly use social media that I am giving up privacy. However, social media has been more beneficial than negative #genychat

**laurenkgray:** You chose what you put out there and share on SM, don't share what you don't want public. #genychat

**Data\_Diva:** Oh it's called "real time" in Tweetdeck -- almost too fast LOL #GenYChat

**CoachJennie:** A1: We've been fortunate | incident free. I'm wary, but I want to participate so I go with it (fingers crossed) #genychat

**GenyChat:** @josippetrusa People have sued big corporations because of "privacy leaks" --- so there has to be something there bc they all win! #genychat

**laurenkgray:** I agree!! RT @Data\_Diva: Oh it's called "real time" in Tweetdeck -- almost too fast LOL #GenYChat

**JimmySW:** Anyone else having issues with tweetchat tonight? #genychat

**laurenkgray:** @JimmySW yeah I had to switch to tweetdeck because tweetchat was frozen? #genychat

**GenyChat:** Good distinction between privacy only dealing with social profiles vs. professional ones. Do you think there is one? #genychat

**JoelleTweeted:** Okay, first time joining #genychat. Joelle, senior at University of Houston. Hello all #genychat

**gretagrays:** I think ppl automatically assume sm sites have our best interest in mind so we trust them...not the case tho! #genychat

**rotolo:** @GenYChat depends what ppl mean by "privacy" -sometimes we mean settings/controls. Sometimes it's an expectation that is violated #genychat

**josippetrusa:** You're right. But those have been issues that infringed on the small print. @GenYChat #genychat

**ComeRecommended:** Glad you could join us! RT @JoelleTweeted: Okay, first time joining #genychat. Joelle, senior at University of Houston. Hello all #genychat

**jacqteo:** @genychat @MillennialTweet But it's slowly turning into Facebook for the professionals. Now we can practically feature our resume #genychat

**GenyChat:** @JimmySW Yes! I think Tweetchat is down -- which is boo! I have a few windows open with Twitter.com showing #genychat

**KarasPRlove:** I agree Many SM has pushed privacy to the side in a way. But people who use SM should b smart enough 2 not give out private info #genychat

**laurenkgray:** Professional sites are probably more trustworthy with information sharing than just social sites. #genychat

**CoachJennie:** Having some serious twitter refresh issues... #genychat

**DaveYouTern:** Very true! RT @gretagrays: I think ppl automatically assume sm sites have our best interest in mind we trust them.not the case tho! #genychat

**Joesalome:** Crap RT @carol\_phillips 20-somethings-beready for a 'thrisis' - uneasiness people experience as they hit 30 <http://bit.ly/92yw96> #genychat

**laurenkgray:** @CoachJennie apparantly tweetchat isn't updating. I would switch to tweetdeck or another platform. #genychat

**JimmySW:** @laurenkgray Thanks. I might have to switch to my other computer...Ugh! #genychat

**MillennialTweet:** @JoelleTweeted Welcome! #genychat

**josippetrusa:** We're all increasingly more mature. We understand what to put and what not to put out there. We are more SM literate #genychat

**GenyChat:** Good conversation is already headed in the direction of the second question of the evening! Question 2

coming up! #genychat

**jacqteo:** @sjkaur @tishaDR Hey girls, come join the #genychat hey. I'm sure you have a lot to share. ^\_^

**Data\_Diva:** Q1: I have 2 twitter accounts - one for fun and one professional along with LinkedIn. FB is for family and very close friends. #GenYChat

**laurenkgray:** @josippetrusa Very true. I think (mostly) everyone is a lot more SM literate now. #genychat

**GenyChat:** Q2: Social Media Mammoths such as Facebook and Twitter are routinely scrutinized for privacy leaks - are you worried? #genychat

**ComeRecommended:** RT @GenYChat: Q2: Social Media Mammoths such as Facebook and Twitter are routinely scrutinized for privacy leaks - worried? #genychat

**gretagray:** @josippetrusa agreed! The more I use sm, the more aware I am of what I put out there. #genychat

**laurenkgray:** Q2: I'm not too worried about Privacy \*leaks\* I'm worried about the amount of info ON us they have stored... #genychat

**asr2008:** Sometimes there are two different agendas for a social profile vs a professional one. At least that's what I've run into #genychat

**ComeRecommended:** A2. I think both have created many ways to protect your privacy. Some people just don't take advantage of it. #genychat

**jacqteo:** Those who are having some serious refreh issues with Twitter can try Hootsuite hey. My Twitter hasn't been able to load for days. #genychat

**katgerste:** RT @josippetrusa: We're all increasingly more mature & understand wht 2 put & wht not 2 put out thr. We R more SM literate #genychat <-agree

**josippetrusa:** A2 I'm hardly worried. I don't simply put everything out there. But I do put stuff out-there to be found. And I have been found ;) #genychat

**gretagray:** @Data\_Diva are you ever concerned about employers, colleagues, etc looking at your fb tho? #genychat

**Data\_Diva:** Q2: I'm not worried about what I'll say ... what they're collecting is another issue #GenYChat

**CoachJennie:** A2: The worry is always there in the back of my mind, but I enjoy the benefits that the tools provide too much. #GenYChat

**GenyChat:** RT @laurenkgray Q2: I'm not too worried about Privacy \*leaks\* I'm worried about the amount of info ON us they have stored... #genychat

**MillennialTweet:** @Data\_Diva Me too. Great distinction. #GenYChat

**laurenkgray:** @Data\_Diva that's exactly what I said. I'm not really worried about \*leaks\* I'm worried about their collection of data. #genychat

**asr2008:** Facebook has me more worried than anything since we all (whether private or public) share more vs. other sites #genychat

**YouTernMark:** A2 Leaks, maybe. People foolishly placing unsafe or too-personal info on SM... ALWAYS! #genychat

**Data\_Diva:** @gretagray It's pretty locked down and even so nothing too outlandish on it #genychat

**laurenkgray:** @rotolo FB has become the creepiest place. the new "see friendship" is WAYYY too far. #genychat

**ComeRecommended:** Yes! RT @YouTernMark: A2 Leaks, maybe. People foolishly placing unsafe or too-personal info on SM... ALWAYS! #genychat

**MillennialTweet:** A2: Not worried--b/c I don't put ID info out there. More worried about Google and privacy some day being an issue! #GenYChat

**josippetrusa:** I guess it all really depends on what you want to achieve with SM. I use it significantly for exposure, not my personal life #genychat

**rotolo:** @laurenkgray and sometimes a SM site changes how it works. For ex, FB's addition "news feed" felt like a privacy invasion to many #genychat

**CoachJennie:** RT @ComeRecommended: Yes! RT @YouTernMark: A2 Leaks, maybe. People foolishly placing unsafe or too-personal info on SM... ALWAYS! #genychat

**MillennialTweet:** Agreed! RT @laurenkgray: @rotolo FB has become the creepiest place. the new "see friendship" is WAYYY too far. #genychat

**jacqteo:** Totally! RT @laurenkgray: @rotolo FB has become the creepiest place. the new "see friendship" is WAYYY too far. #genychat

**GenyChat:** With Facebook, isn't the "private" information, information we already put online? What are you worried about people seeing? #genychat

**josippetrusa:** Remember the early days of FB. What did we really know?! lol #genychat @laurenkgray@gretagray

**Data\_Diva:** @laurenkgray Yes! Lord only knows what all they're collecting and what they're doing with it #genychat

**gretagray:** @Data\_Diva thats what i've tried to do with mine. Im very aware of what I post since I'll be job hunting soon. #genychat

**ComeRecommended:** @GenYChat I think people just view Facebook as a more \*personal\* site. #genychat

**laurenkgray:** When you "deactivate" your Facebook, it's not really gone. You can reactivate it years later. They STORE your info.... #genYchat

**katgerste:** Q2. Is it not more common for ppl to steal identities through physical mail than through SM?! #genychat

**asr2008:** alrighty all my run at starbucks has come to an end, will catch the transcript later. Nite all! #genychat

**MillennialTweet:** Tonight's chat brings "The Social Network" to mind. If anyone online tonight hasn't seen it--go! #GenYChat

**ComeRecommended:** Yep. RT @katgerste: Q2. Is it not more common for ppl to steal identities through physical mail than through SM?! #genychat

**laurenkgray:** @josippetrusa @gretagray I liked FB a LOT better in the earlier days back in ya know 03 or 04? #genychat

**JSkow1:** Hey! Sorry I'm late everybody, what's the latest question for tonight? #GenYchat

**GenyChat:** RT @josippetrusa: Remember the early days of FB. What did we really know?! lol #genychat@laurenkgray @gretagray

**josippetrusa:** Everything has been stored since the beginning of information. We should've been worried long time ago #genychat @laurenkgray

**rotolo:** @laurenkgray A change like "see friendship" can repurpose info in ways users never intended. public info, but feels like invasion #genychat

**laurenkgray:** @josippetrusa Exactly. I'm not worried about what I'm sharing, I'm worried about what they're storing. my private messages? #genychat

**jacqteo:** @genychat Because we only want certain people to see it. :) It's different knowing that the whole Internet community can see it. #genychat

**katgerste:** Q2. I don't accept randoms on Facebook & don't have my profile open for just anyone to browse. So not too worried about stalkers #genychat

**Data\_Diva:** I rarely ever friend co-workers on FB -- I direct them to LinkedIn or this twitter account #GenYChat

**GenyChat:** I think the friendship feature on FB is unique. It lets me see who my friends are friends with - shows we live in a small world. #genychat

**JoelleTweeted:** @josippetrusa We weren't concerned about that back in high school days, so what do we do with all THAT now, it's stored somewhere. #genychat

**YouTernMark:** @josippetrusa Now that we "know better" are people deleting the old info from their profiles, etc.? #genychat

**GenyChat:** @katgerste Do you add people from whom you've met online? #genychat

**laurenkgray:** I don't friend anyone I don't know or haven't personally met on FB... FB is already creepy enough. #genychat

**Data\_Diva:** @laurenkgray Totally agree! (FB friends) #genychat

**laurenkgray:** I do add people from Twitter, but a LOT of the people I regularly talk with I've met now via #prssanc:] #genychat

**JoelleTweeted:** @katgerste Q2. Do you clean it out regularly? Who your friends are today may not be there tomorrow. That's what's scary #genychat

**GenyChat:** What is so secretive that you've written in a FB private message that if it was leaked, you'd be frightened or scared? #genychat

**gretagrays:** @YouTernMark I did! I revamped my facebook several months ago and took out alot of personal info #genychat

**josippetrusa:** You have no choice but to be wiser now and make the best of it. The past is too late #genychat@laurenkgray @JoelleTweeted @YouTernMark

**JoelleTweeted:** @YouTernMark Or even old friends that aren't friends anymore #genychat

**bryan\_jackson:** RT @laurenkgray: When you "deactivate" your Facebook, it's not really gone. You can reactivate it years later. They STORE your info.... #genYchat

**JimmySW:** I find I don't use FB as much anymore. #genychat

**JoelleTweeted:** @laurenkgray :) Like me! #genychat

**laurenkgray:** @gretagrays I changed my FB completely last year and made it more professional and deleted like 200+ people. #genychat

**laurenkgray:** RT @josippetrusa: You have no choice but to be wiser now and make the best of it. The past is too late #genychat @laurenkgray @JoelleTweeted @YouTernMark

**MillennialTweet:** nothing more refreshing then cutting your friend list down on FB every once and a while of ppl you don't talk to #GenYChat

**jacqteo:** ?I hate it when a seasoned employee says, ?You should have to go through this because we did?..? ~Gen Y~ #genychat

**gretagrays:** @laurenkgray ya its creepy! Kinda the new Myspace in terms of friending ppl for certain reasons when you don't even know them #genychat

**GenyChat:** @JoelleTweeted I did just delete about 150 off my facebook the other day. Routine Maintenance is critical #genychat

**laurenkgray:** @JoelleTweeted haha yes! you're not creepy though and I've actually met you! :] #genychat

**katgerste:** @GenYChat Not on FB, that I keep limited to people I actually know eg. from school & some through work #genychat

**JoelleTweeted:** @josippetrusa @laurenkgray @YouTernMark Agree. It's always awkward when new professionals we meet want to add us on Facebook #genychat

**laurenkgray:** @gretagrays Oh girl I deleted my Myspace 2 years ago. That was WAY creepy there... but I do maintain my friends and such on FB now. #genychat

**YouTernMark:** Exactly... Do we maintain our SM... or just "let it ride"? RT @JoelleTweeted: @YouTernMark Or old friends that aren't friends now #genychat

**josippetrusa:** When it really comes down to it, we know the privacy issues exist but we still use it #genychat

**laurenkgray:** @JoelleTweeted @josippetrusa @YouTernMark like I said, if I don't know you, we haven't talked, etc. I don't add you on FB. #genychat

**katgerste:** @JoelleTweeted I do go through my FB friends list regularly and delete ppl I only have limited or no interaction with #genychat

**rotolo:** @GenYChat some of my faculty colleagues are making (fan) Pages for themselves. A public FB presence students/colleagues can "like" #genychat

**GenYChat:** Q3: Houses have been robbed bc of location based services such as Foursquare. Does that cross your mind when you "check-in"? #genychat

**gretagrays:** @JoelleTweeted haha can you say no thanks? I only add friends and family? lol #genychat

**DaveYouTern:** How much of the nervousness is because it's new? RT @josippetrusa: we know the privacy issues exist but we still use it #genychat

**JoelleTweeted:** @laurenkgray How do you know I'm not creepy? ;] haha kidding. Back to #genychat, I need to do a clean up. BAD.

**JimmySW:** I still feel like if you want to keep something REALLY private. Don't share it with SM. #genychat

**ComeRecommended:** RT @GenYChat: Q3: Houses have been robbed bc of location based services. Does that cross your mind when you "check-in"? #genychat

**laurenkgray:** A3: this has crossed my mind with foursquare and geo-location. DON'T BROADCAST WHERE YOU ARE. #genychat

**JoelleTweeted:** @katgerste That's awesome, I really need to do that. I guess once I the BIG cleanup, it will be easier to keep up with. #genychat

**kira\_morehouse:** RT @GenYChat: What is so secretive that you've written in a FB private message that if it was leaked, you'd be frightened or scared? #genychat

**MillennialTweet:** A3: Great question. I think FourSquare hasn't caught on enough yet. Probably soon enough. #GenYChat

**GenYChat:** @rotolo I don't know if I'm fond of that avenue. A "fan page" has lost its meaning to me when they first created it #genychat

**laurenkgray:** I never ever send my check-ins to Twitter and Facebook because that's not safe and honestly, no one cares you're at Wendys. #genychat

**DaveYouTern:** My friend at AOL said when IM started, focus groups almost rioted! :) RT @DaveYouT How much of the nervousness is because it's new? #genychat

**ComeRecommended:** A3. That's most of the reason I don't use location-based services. #genychat

**laurenkgray:** @JoelleTweeted I just did a cleanup last year and deleted like 200+ people... probably need to do it again. #genychat

**JimmySW:** Location Based Services, GPS encrypted photos on Flickr... It all crosses my mind, but I still use it. #genychat

**katgerste:** Q3. In terms of ppl being able to see when you are not home? #genychat

**JoelleTweeted:** @gretagray I know!!! I wish :/ Glad someone else gets a little uncomfortable. #genychat

**MillennialTweet:** A3: I never Tweet a location. #GenYChat

**rotolo:** @JimmySW absolutely. I get questions abt online privacy all the time. It baffles ppl when I say "just don't share everything!" #genychat

**laurenkgray:** #4sqchat and #lbschat there is a GREAT geo-locations safety question right now in #genychat

**Data\_Diva:** Q3 ... I never use a check in feature ... now that's just a little creepy for me #GenYChat

**katgerste:** @JoelleTweeted Yep it keeps it easier to manage, but then again I only have about 300 ppl on FB. But I know all of them personally #genychat

**GenyChat:** @MillennialTweet What about the new Facebook "check-in" ? #genychat

**rotolo:** @GenYChat i have concerns too. It does offer a way to interact with ppl who are FB-only while not worrying about "friending" them #genychat

**JimmySW:** I think Privacy really comes down to one's own comfortableness in what they want people to know. #genychat

**laurenkgray:** Exaaaaactly. Don't do it! It's not safe and it's annoying. RT @MillennialTweet: A3: I never Tweet a location. #GenYChat

**GenyChat:** @laurenkgray I honestly don't care at all. I broadcast it all the time :P #genychat

**gretagray:** @JoelleTweeted maybe we could counter with "Oh, do you tweet? I'll follow you on there!" lol #genychat

**MillennialTweet:** @GenYChat For some reason, my mobile FB doesn't have the "check in" feature. :- ) #genychat

**ComeRecommended:** RT @JimmySW: I think Privacy really comes down to one's own comfortableness in what they want people to know. #genychat

**YouTernMark:** yeah... RT @rotolo: @JimmySW I get questions abt online privacy all the time...baffles ppl when I say "don't share everything!" #genychat

**JoelleTweeted:** @GenYChat A3: Good one. I wonder if that's from checking in to someone's house, which I don't do. Or is it via nearby places also? #genychat

**laurenkgray:** @GenYChat haha I blocked foursquare checkins from my TweetDeck bc I thought they were spam and so annoying :] #genychat

**MonicaKarkhanis:** Sneaked peaked at #GenYchat - wish I could participate...good thing I @laurenkgray is so I can catch up on your insights! haha

**gretagray:** It should, but no. I don't think about the fact that some 1 might be tracking it to use it against me. #genychat
